LOCATION: All UK

TURNOVER (£): 4600000

COMPANY DESCRIPTION: Established and well-respected Builder - High class refurbishment

and new build with a specialist joinery division Ref no: GB136 Confidentially offered for sale

Location: West Sussex Asking price: £1,350,000 A well-respected builder, this company has established an excellent reputation based upon nearly forty years of successful trading. Now managed by the second generation of the family, this very successful company is best known for its high class refurbishment works and the new build projects it carries out predominantly within a thirty to forty mile radius of its West Sussex Head Office. Working predominantly for private Clients, but also including commercial and educational projects, this business always works as the main contractor, with its opportunities generated by an excellent network of Architects and Surveyors, with whom this business has built strong relationships based on its ability to complete projects on time, on budget and to a very high standard of workmanship. Operating in a catchment area which contains residents included amongst some of the highest net worth individuals in the country, this business works on some highly prestigious projects with average contract values in the region of £1 million. Turnover, which has increased steadily over the past five years, broadly speaking is split between, domestic projects which represent approximately 60% of total turnover with the remainder made up of commercial work - with new build, alterations and refurbishment work and listed building projects roughly equally represented.

MANUFACTURING

DEAL ID: 7994

COMPANY NAME: IT086-Merseyside-£199,000-Specialist Steel & Aluminium Ventilator Supplier

LOCATION: All UK

TURNOVER (£): 200000

COMPANY DESCRIPTION: Specialist Steel & Aluminium Ventilator Supplier/Manufacturer To The Utilities Market Approved Supplier Status Confidentially offered for sale Ref No: IT086 Location: Merseyside (Fully relocatable) Asking price: £199,000 This is a rare and outstanding opportunity to acquire a profitable company that supplies its own design ventilators and ancillary equipment for use on sub-stations within the utilities market. This business enjoys approved/preferred supplier status with one of the UK's largest utility companies for the supply of its own unique ventilator products which ensures a constant demand for its goods and services. There are no other companies in the UK who currently supply this quality and range of steel/aluminium ventilators so the business is in an enviable position of having no real competition. In addition to the ventilators the company also provides additional items such a timber hardwood doors, ironmongery and other associated products so as to provide a complete turnkey supply solution to those companies building and maintaining such sub-stations on behalf of the major utility companies.

DEAL ID: 7998

COMPANY NAME: AM035-London-£500,000-Well Established & Successful Motor Cycle Hire

DEAL ID: 7969

COMPANY NAME: GK216-United Kingdom & Ireland- Offers Invited-Manufacture Distribution

LOCATION: All UK

TURNOVER (£): 637500000

COMPANY DESCRIPTION: Manufacture Distribution and Installation of Cavity Wall Insulation Ref.GK216 Location United Kingdom & Ireland Offers Invited This business manufactures, distributes and installs a unique range of cavity wall insulation throughout the United Kingdom and Ireland. Cavity wall insulation involves the injection of a suitable insulant, using a specified and approved system designed to ensure a complete fill of the cavity wall area. The manufacturing plant is capable of producing 130 tonnes per week, sufficient for 4,000 installations a week, which saves 14 million tonnes of carbon emissions per year. The product is supplied to an established customer base including government contracts. Already well known, with customers nationwide, the company in an enviable position to build on the demand generated by government departments, organisations and individuals in order to dramatically reduce energy bills and reduce carbon emissions. With properly insulated homes, consumers can save money on fuel bills, conserve the warmth of their homes while cutting carbon emissions. Estimations have found that the most energy inefficient homes in the UK could save on average around £550 per year, by installing insulation. Under the newly restructured Government obligation on energy companies (CERT - Carbon Emissions Reduction Target), 68% of energy suppliers' work will now have to be met through professionally installed loft, cavity and solid wall insulation.
